

Dear Parents,

We have collated some useful FREE apps where you can either get free products, cashback or low-cost meals.

Shopmium

An app available on apple or android. You browse the offers available, save the ones you like, shop instore as usual, scan the item on your app and within a few days you will have cashback from the item. Some items are 100% cashback meaning you get all your money back.

Too Good to Go

Local businesses list meals that are going to be spare and you can purchase via the app to collect and take home. Green oak farm, Sandwich Express and Subway are just a few of the local eateries who advertise daily.

Google opinion rewards

This is only available for android users. You answer questions about places you've visited or things you have searched on google and you get some money back for doing so. This can only be spent on google play but may be useful to save up for a family movie night.

Shoppix

An app where you scan each receipt you have (you can also forward them via email) and get points for doing so. Points add up and can be redeemed for amazon vouchers or paypal cash.
